RE: **Award No:** City of Columbus, Section 319(h) EPA-27 Agreement 650706
OSU Project: Lower Olentangy River Ecosystem Restoration Project – OSURF60005536

Dear John:

Replying to your email on 18 June 2009 after we submitted web addresses of deliverables 2 and 3 on the above Section 319 contract on 16 June 2009, I am included two hard copies and two CDs of the following reports:

2. Pre-construction monitoring report

This report contains original data and supporting text on the lower Olentangy River on remotely sensed imaging of the study site (Section 1), water quality and hydrology (Section 2); aquatic habitat (Section 3), soil/sediment /microbiology (Section 4), and existing riparian vegetation (Section 5).

3. Annual report: Pre-construction monitoring assessment report

This report, originally submitted to you at our meeting with the City on November 20 2008, includes analysis of data collected from January 2007 through May 2008 in the form of 10 posters projects publically presented by Ohio State undergraduate researchers and their professors. It includes data analyses on remote sensing, river hydrology, water quality, aquatic habitat, denitrification potential and sediments, and riparian vegetation.

If you have any questions or comments, please feel free to contact me by phone (614-292-9774) or email (mitsch.1@osu.edu).

Best regards,

William J. Mitsch, Ph.D.
Director and Professor
Project Principal Investigator

cc. Martha Spurbeck (Ohio EPA)
Dennis Wilt (OSURF) without copies of reports
